The notification will include the licensee's right to appeal the penalty pursuant to Section 97052.
- (b) After a health facility has been determined to be non-compliant and has failed to develop an approved plan of action to implement the prescribed system of accounting, the health facility shall be liable for a penalty of five thousand dollars (\$5,000) each time the health facility files a report pursuant to either Section 128735(a) through (e) or Section 128740 of the Health and Safety Code. (a) To obtain modifications to the uniform accounting and reporting systems specified by Sections 97017, 97018, and 97019, including modifications to the account coding structure,

health facilities must file a written request for modification with the Office. Health facilities must have an Office-approved modification prior to implementation of any change to the applicable uniform accounting system. Modification requests shall specify the precise changes being requested and the reason(s) the changes are needed. Requests from health facilities for modification to the applicable uniform accounting system, including requests to use an alternate coding scheme, shall be accompanied by (1) a cross reference between the facility's proposed account codes and titles, and the account codes and titles in the applicable accounting and reporting manual and (2) the facility's account definitions. The Office shall either approve or disapprove requests for modification within 60 days of the date the request was filed with the Office by the health facility, or the request shall be considered approved as submitted. However, if additional information is required from the health facility to evaluate the request, the Office shall have 30 days from the receipt of the additional information to approve or disapprove the request. The Office may also seek additional information from other appropriate sources to evaluate the request. Approved requests for systems modifications are subject to annual review and renewal by the Office.

(b) The Office shall grant modifications, upon written application, to licensed health facilities that are an integral part of a residential care complex to permit accounting and reporting for assets, liabilities, and equity for the entire residential care complex rather than require separate accounting for health care related assets, liabilities, and equity. Requests for modifications under

this paragraph shall be submitted prior to the start of the accounting period to which the modifications are to apply and shall specify the proposed balance sheet account related modifications.

- (c) The Office may grant modifications, upon written request, to licensees operating and maintaining more than one physical plant on separate premises under a single consolidated hospital license, issued pursuant to Health and Safety Code Section 1250.8, to file separate annual disclosure reports and quarterly financial and utilization reports for each location. The Office may also grant modifications, upon written request, to licensees of hospitals to file annual disclosure reports and quarterly financial and utilization reports for their mental health or rehabilitation care operations separately from the rest of the hospital operations. Licensees granted modifications under this paragraph shall be responsible for all regulatory requirements for each separate report. Separate extension requests, filed under the provisions of Section 97051, shall be required for each report, and penalties, assessed pursuant to Section 97045, shall be assessed on each delinquent report.
- (d) In determining what modifications will be granted to health facilities under (a) or (c), the Office may take into account, but not be limited to the following factors:
- (1) The data reported are comparable to data reported from other health facilities to the maximum extent feasible as determined by the Office;
- (2) The report substantially complies with the purposes of the Health Data and Advisory Council Consolidation Act;
- (3) The facility has considered and has a plan for the eventual or gradual implementation of the general accounting and reporting systems prescribed by the Office; and
- (4) The burden on the health facility to report otherwise required data is sufficiently great that the cost to the health facility of preparing these data would outweigh the benefit to the people of the State of California.

Hospitals shall distinguish the "homeless" (patients who lack a residence) from other patients lacking a numeric ZIP Code of residence by reporting the ZIP Code of homeless patients as "ZZZZZZ." If the patient has a 9-digit ZIP Code, only the first five digits shall be reported.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97220. Definition of Data Element—Patient Social Security Number.

The patient's social security number is to be reported as a 9-digit number. If the patient's social security number is not recorded in the patient's medical record, the social security number shall be reported as "not in medical record," by reporting the social security number as "000000001." The number to be reported is to be the patient's social security number, not the social security number of some other person, such as the mother of a newborn or the insurance beneficiary under whose account the hospital's bill is to be submitted.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97221. Definition of Data Element—Admission Date.

The patient's date of admission shall be reported in numeric form as follows: the 2-digit month, the 2-digit day, and the 4-digit year. The numeric form for days and months from 1 to 9 must have a zero as the first digit. For discharges representing a transfer of a patient from one type of care within the hospital to another type of care within the hospital, as defined by Subsection (i) of Section 97212 and reported pursuant to Section 97212, the admission date reported shall be the date the patient was transferred to the type of care being reported on this record.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97222. Definition of Data Element—Source of Admission.

Effective with discharges on or after January 1, 1997, in order to describe the patient's source of admission, it is necessary to address three aspects of the source: first, the site from which the patient originated; second, the licensure of the site from which the patient originated; and, third, the route by which the patient was admitted. One alternative shall be selected from the list following each of three aspects:

- (a) The site from which the patient was admitted.
- (1) Home. A patient admitted from the patient's home, the home of a relative or friend, or a

vacation site, whether or not the patient was seen at an outpatient clinic or physician's office, or had been receiving home health services or hospice care at home.

- (2) Residential Care Facility. A patient admitted from a facility in which the patient resides and that provides special assistance to its residents in activities of daily living, but that provides no organized health care.
- (3) Ambulatory Surgery. A patient admitted after treatment or examination in an ambulatory surgery facility, whether hospital-based or a freestanding licensed ambulatory surgery clinic or certified ambulatory surgery center. Excludes outpatient clinics and physicians' offices not licensed and/or certified as an ambulatory surgery facility.
- (4) Skilled Nursing/Intermediate Care. A patient admitted from skilled nursing care or intermediate care, whether freestanding or hospital-based, or from a Congregate Living Health Facility, as defined by Subdivision (i) of Section 1250 of the Health and Safety Code.
- (5) Acute Hospital Care. A patient who was an inpatient at a hospital, and who was receiving inpatient hospital care of a medical/surgical nature, such as in a perinatal, pediatric, intensive care, coronary care, respiratory care, newborn intensive care, or burn unit of a hospital.
- (6) Other Hospital Care. A patient who was an inpatient at a hospital, and who was receiving inpatient hospital care not of a medical/surgical nature, such as in a psychiatric, physical medicine rehabilitation, or chemical dependency recovery treatment unit.
  - (7) Newborn. A baby born alive in this hospital.
  - (8) Prison/Jail. A patient admitted from a correctional institution.
- (9) Other. A patient admitted from a source other than mentioned above. Includes patients admitted from a freestanding, not hospital-based, inpatient hospice facility.
  - (b) Licensure of the site.
- (1) This Hospital. The Ambulatory Surgery, Skilled Nursing/Intermediate Care, Acute Hospital Care, or Other Hospital Care from which the patient was admitted was operated as part of the license of this hospital. Includes all newborns.
- (2) Another Hospital. The Ambulatory Surgery, Skilled Nursing/Intermediate Care, Acute Hospital Care, or Other Hospital Care from which the patient was admitted was operated as part of the license of some other hospital.
- (3) Not a Hospital. The site from which the patient was admitted was not operated under the license of a hospital. Includes all patients admitted from Home, Residential Care, Prison/Jail, and Other sites. Includes patients admitted from Ambulatory Surgery or Skilled Nursing/Intermediate Care sites that were not operated under the authority of the license of any hospital. Excludes all patients admitted from Acute Hospital Care or Other Hospital Care.
  - (c) Route of admission.

- (1) Your Emergency Room. Any patient admitted as an inpatient after being treated or examined in this hospital's emergency room. Excludes patients seen in the emergency room of another hospital.
- (2) Not Your Emergency Room. Any patient admitted as an inpatient without being treated or examined in this hospital's emergency room. Includes patients seen in the emergency room of some other hospital and patients not seen in any emergency room.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

### 97223. Definition of Data Element—Type of Admission.

Effective with discharges on January 1, 1995, the patient's type of admission shall be reported using one of the following categories:

- (a) Scheduled. Admission was arranged with the hospital at least 24 hours prior to the admission.
- (b) Unscheduled. Admission was not arranged with the hospital at least 24 hours prior to the admission.
  - (c) Infant. An infant less than 24 hours old.
  - (d) Unknown. Nature of admission not known. Does not include stillbirths.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97224. Definition of Data Element—Discharge Date.

The patient's date of discharge shall be reported in numeric form as follows: the 2-digit month, the 2-digit day, and the 4-digit year. The numeric form for days and months from 1 to 9 must have a zero as the first digit.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

# 97225. Definition of Data Element—Principal Diagnosis and Whether the Condition was Present at Admission.

- (a) The patient's principal diagnosis, defined as the condition established, after study, to be the chief cause of the admission of the patient to the facility for care, shall be coded according to the ICD-9-CM.
- (b) Effective with discharges on or after January 1, 1996, whether the patient's principal diagnosis was present at admission shall be reported as one of the following:

- (1) Yes.
- (2) No.
- (3) Uncertain.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

# 97226. Definition of Data Element—Other Diagnoses and Whether the Conditions were Present at Admission.

- (a) The patient's other diagnoses are defined as all conditions that coexist at the time of admission, that develop subsequently during the hospital stay, or that affect the treatment received and/or the length of stay. Diagnoses that relate to an earlier episode that have no bearing on the current hospital stay are to be excluded. Diagnoses shall be coded according to the ICD-9-CM. ICD-9-CM codes from the supplementary classification of external causes of injury and poisoning (E800-E999) shall not be reported as other diagnoses.
- (b) Effective with discharges on or after January 1, 1996, whether the patient's other diagnoses were present at admission shall be reported as one of the following:
  - (1) Yes.
  - (2) No.
  - (3) Uncertain.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97227. Definition of Data Element—External Cause of Injury.

The external cause of injury consists of the ICD-9-CM codes E800-E999 (E-codes), that are codes used to describe the external causes of injuries, poisonings, and adverse effects. If the information is available in the medical record, E-codes sufficient to describe the external causes shall be reported for discharges with a principal and/or other diagnoses classified as injuries or poisonings in Chapter 17 of the ICD-9-CM (800-999), or where a code from Chapters 1-16 of the ICD-9-CM (001-799) indicates that an additional E-code is applicable, except that the reporting of E-codes in the range E870-E879 (misadventures and abnormal reactions) are not required to be reported. An E-code is to be reported only for the first inpatient hospitalization during which the injury, poisoning, and/or adverse effect was diagnosed and/or treated. To assure uniform reporting of E-codes, when multiple codes are required to completely classify the cause, the first (principal) E-code shall describe the mechanism that resulted in the most severe injury, poisoning, or adverse effect. If the principal E-code does not include a description of the place of occurrence of the most severe injury or poisoning, an E-code shall be reported to designate the place of occurrence, if available in the medical record. Additional E-codes shall

be reported, if necessary to completely describe the mechanisms that contributed to, or the causal events surrounding, any injury, poisoning, or adverse effect first diagnosed and/or treated during the current inpatient hospitalization.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97228. Definition of Data Element—Principal Procedure and Date.

The patient's principal procedure is defined as one that was performed for definitive treatment rather than one performed for diagnostic or exploratory purposes, or was necessary to take care of a complication. If there appear to be two procedures that are principal, then the one most related to the principal diagnosis should be selected as the principal procedure. Procedures shall be coded according to the ICD-9-CM. If only non-therapeutic procedures were performed, then a non-therapeutic procedure should be reported as the principal procedure, if it was a significant procedure. A significant procedure is one that is surgical in nature, or carries a procedural risk, or carries an anesthetic risk, or is needed for DRG assignment. The date the principal procedure was performed shall be reported in numeric form as follows: the 2-digit month, the 2-digit day, and the 4-digit year. The numeric form for days and months from 1 to 9 must have a zero as the first digit.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97229. Definition of Data Element—Other Procedures and Dates.

All significant procedures are to be reported. A significant procedure is one that is surgical in nature, or carries a procedural risk, or carries an anesthetic risk, or is needed for DRG assignment. Procedures shall be coded according to the ICD-9-CM. The dates shall be recorded with the corresponding other procedures and be reported in numeric form as follows: the 2-digit month, the 2-digit day, and the 4-digit year. The numeric form for days and months from 1 to 9 must have a zero as the first digit.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

## 97230. Definition of Data Element—Total Charges.

The total charges are defined as all charges for services rendered during the length of stay for patient care at the facility, based on the hospital's full established rates. Charges shall include, but not be limited to, daily hospital services, ancillary services, and any patient care services. Hospital-based physician fees shall be excluded. Prepayment (e.g., deposits and prepaid admissions) shall not be deducted from Total Charges. If a patient's length of stay is more than 1 year (365 days), report Total Charges for the last year (365 days) of stay only.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97231. Definition of Data Element—Disposition of Patient.

Effective with discharges on or after January 1, 1997, the patient's disposition, defined as the consequent arrangement or event ending a patient's stay in the reporting facility, shall be reported as one of the following:

- (a) Routine Discharge. A patient discharged from this hospital to return home or to another private residence. Patients scheduled for follow-up care at a physician's office or a clinic shall be included. Excludes patients referred to a home health service.
- (b) Acute Care Within This Hospital. A patient discharged to inpatient hospital care that is of a medical/surgical nature, such as to a perinatal, pediatric, intensive care, coronary care, respiratory care, newborn intensive care, or burn unit within this reporting hospital.

A patient discharged to another hospital to receive inpatient hospital care not of a medical/surgical nature and not skilled nursing/intermediate care, such as to a psychiatric, physical medicine rehabilitation, or chemical dependency recovery treatment unit of another hospital.
- (g) Skilled Nursing/Intermediate Care Elsewhere. A patient discharged from this hospital to a Skilled Nursing/Intermediate Care type of care, either freestanding or a distinct part within another hospital, or to a Congregate Living Health Facility, as defined by Subsection (i) of Section 1250 of the Health and Safety Code.
- (h) Residential Care Facility. A patient discharged to a facility that provides special assistance to its residents in activities of daily living, but that provides no organized health care.
  - (i) Prison/Jail. A patient discharged to a correctional institution.
- (j) Against Medical Advice. Patient left the hospital against medical advice, without a physician's discharge order. Psychiatric patients discharged from away without leave (AWOL) status are included in this category.
- (k) Died. All episodes of inpatient care that terminated in death. Patient expired after admission and before leaving the hospital.

- (l) Home Health Service. A patient referred to a licensed home health service program.
- (m) Other. A patient discharged to some place other than mentioned above. Includes patients discharged to a freestanding, not hospital-based, inpatient hospice facility.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97232. Definition of Data Element—Expected Source of Payment.

- (a) Effective with discharges occurring January 1, 1995, through December 31, 1998, the patient's expected principal source of payment, defined as the source that is expected to pay the greatest share of the patient's bill, shall be reported using the following categories:
- (1) Medicare. Defined by Title XVIII of the Social Security Act (42 USC 1395 et seq.) and Title I of the Federal Medicare Act (PL 89-97). Includes crossovers to secondary payers. Report Medicare patients covered under an HMO or PPO arrangement as Medicare.
- (2) Medi-Cal. Defined by Title XIX of the Social Security Act and Title I of the Federal Medicare Act (PL 89-97). Report Medi-Cal patients covered under an HMO or PPO or other type of managed care arrangement as Medi-Cal.

Where payment is under a self-insured or self-funded plan, the category to be used is the one most descriptive of the third-party administrator. For example, if the self-insured or self-funded plan is administered by Blue Cross/Blue Shield, then Blue Cross/Blue Shield should be reported as the expected source of payment; if the third-party administrator is an HMO, then HMO should be reported as the source; similar choices should be made if the third-party administrator is a PPO or Private Insurance Company.

#### 97233. Definition of Data Element—Prehospital Care and Resuscitation.

Effective with discharges on or after January 1, 1999, information about resuscitation orders in a patient's current medical record shall be reported as follows:

- (a) Yes, a DNR order was written at the time of or within the first 24 hours of the patient's admission to the hospital.
- (b) No, a DNR order was not written at the time of or within the first 24 hours of the patient's admission to the hospital.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97239. Hospital Identification Number.

Effective with discharges on or after January 1, 1995, the last six digits of the 9-digit identification number assigned by the Office shall be reported as part of each patient record, either in the specified section of the Manual Abstract Reporting Form (OSHPD 1370) or in positions 2 through 7 on computer media format.

Authority: Section 128765, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97240. Request for Modifications to the California Hospital Discharge Data Set.

- (a) Hospitals may file a request with the Office for modifications to the California Hospital Discharge Data Set. The modification request must be supported by a detailed justification of the hardship that full reporting of discharge data would have on the hospital; an explanation of attempts to meet discharge data reporting requirements; and a description of any other factors that might justify a modification. Modifications may be approved for only one year. Each hospital with an approved modification must request a renewal of that approval 60 days prior to termination of the approval period in order to have the modification continue in force.
- (b) The criteria to be considered and weighed by the Office in determining whether a modification to discharge data reporting requirements may be granted are as follows:
- (1) The modification would not impair the ability of either providers or consumers to make informed health care decisions.
- (2) The modification would not deprive the public of discharge data needed to make comparative choices with respect to scope or type of services or to how services are provided, and with respect to the manner of payment.
  - (3) The modification would not impair any of the goals of the Act.

Authority: Section 128810, Health and Safety Code.

Reference: Sections 128735 and 128760, Health and Safety Code.

#### 97241. Requests for Extension of Time to File Discharge Data.

Extensions are available to hospitals that are unable to complete their submission of discharge data reports by the due date prescribed in Section 97211. A maximum of 60 days is allowed for all extensions, corrections, and resubmittals. Hospitals are encouraged to file extension requests as soon as it is apparent that the required data will not be completed for submission on or before their due date. The request for extension shall be postmarked on or before the required due date of the discharge data report and supported by a letter of justification that may provide good and sufficient cause for the approval of the extension request. To provide the Office a basis to determine good and sufficient cause, the letter of justification shall include a factual statement indicating:

(1) the actions taken by the hospital to produce the discharge data report by the required deadline;

- (2) those factors that prevent completion of the discharge data report by the deadline; and
- (3) those actions and the time (days) needed to accommodate those factors.

The Office shall respond within 10 days of receipt of the request by either granting what is determined to be a reasonable extension or disapproving the request. If disapproved, the Office shall set forth the basis for a denial in a notice to the hospital sent by certified mail. The Office may seek additional information from the requesting hospital. The Office shall not grant extensions that exceed an accumulated total of 60 days for all extensions and corrections of discharge data. If a hospital submits the discharge data report prior to the due date of an extension, those days not used will be applied to the number of remaining extension days. A hospital that wishes to contest any decision of the Office shall have the right to appeal, pursuant to Section 97052.

Authority: Section 128810, Health and Safety Code. Reference: Section 128735, Health and Safety Code.

#### 97242. Error Tolerance Levels.

- (a) The error tolerance levels for discharge data items reported to the Office shall be as shown in Table 1. An error percentage that exceeds a specified error tolerance level shall be corrected by the hospital to the specified tolerance level.
- (b) For error percentages for the data elements Admission Date and Discharge Date that do not exceed the error tolerance levels specified in Table 1, the Office shall delete each record with an error in one of these data elements from the hospital's report if the hospital fails to correct the data after a 30 calendar day notification by the Office of the errors.
- (c) Effective with discharges occurring on or after July 1, 1990, for error percentages for data elements other than Admission Date and Discharge Date that do not exceed the error tolerance levels specified in Table 1, the Office shall assign default values of blank, which may be represented by a zero, except that for the data element Whether the Condition was Present at Admission for the Principal Diagnosis the Office shall assign the default value of Yes, if the hospital fails to correct the data after a 30 calendar day notification by the Office of the errors.

## 97243. Acceptance Criteria.

- (a) The discharge data report shall not be accepted but shall be rejected and returned to the hospital by the Office if the following requirements are not met:
- (1) Submission of a completed transmittal form with the discharge data report, pursuant to Section 97214
- (2) Compliance with the Office's standard format and specifications, demonstrated by the hospital or its designated agent having previously submitted a set of data that the Office approved as being in conformance to the applicable standard format and specifications, pursuant to Section 97215.
- (3) Submission of the appropriate version of the Manual Abstract Reporting Form (OSHPD 1370), as specified in Section 97215, when reporting other than on computer media.
- (4) Submission by the hospital or by its designated agent in accordance with the most recent designation furnished by the hospital to the Office, pursuant to Section 97210.
- (b) After a discharge data report is accepted, the hospital may be required to correct and/or replace the data if any of the following circumstances pertain:
  - (1) The Office is unable to read the computer media submitted.
- (2) When the computer medium data file is read, it contains no data, contains data not covering the full reporting period, or contains a different number of records in the file than the number of records stated on the transmittal form.
  - (3) The data are not reported in compliance with Section 97215.
- (4) The hospital identification number on each of the records being reported for the hospital does not agree with that hospital's identification number specified on the transmittal form, pursuant to Section 97214.
- (5) Corrections are required as a result of not meeting the requirements of Section 97213; not meeting the data element definitions, as specified in Sections 97216 through 97233; and/or not meeting the error tolerance levels, as specified in Table 1 of Section 97242.
  - (6) All inpatient discharges, as defined by Subsection (d) of Section 97212, were not reported.
- (c) If a hospital is required to replace or correct their discharge data, the Office shall allow a specified number of days for correction or replacement and shall establish a due date for resubmittal of the corrections or replacement. In determining the number of days to be allowed, the Office shall take account of the number and degree of errors and the number of extension days already granted, but in no case shall an aggregate total of more than 60 days for all extensions, corrections, replacements, and resubmittals be allowed.
